

# SEMN TEAM CONTRACT

Senior Design '23-'24

## Project Focus:

An implementation of basic AI principles into a user-friendly application. This application will use public AI to generate custom images from given images for wallpaper or posters. Really anything that could use a creative image generated.

## Timing and Frequency:

We will meet every week on Tuesdays and Thursdays at 3:30pm. The meeting location will alternate weekly between Langsam library and online, and we will check individual work as a group.
